## What is the Cappex Application?

The Cappex Application is a streamlined application that allows students to apply to multiple schools without the need for repetitive essays, complicated forms or expensive application fees.

Why should my students use the Cappex Application?

There are many benefits to applying to college via the Cappex Application:

- Students can apply to a range of schools they may be interested in.
- Instead of repetitive, school-specific essays, students can complete standardized essay questions, allowing them to complete their applications in a more timely manner.
- Our application is free, so students don't need to worry about costly fees preventing them from applying to every school on their list.

Do students need to pay for any part of the Cappex application?

No. Our application is free for all students, no matter how many applications they submit. No fee waivers are required.

Will my students be at a disadvantage if they don't complete school-specific supplemental essays?

Schools that accept the Cappex Application have agreed to accept the Cappex Application's standardized set of essay questions. That means your students will receive the same consideration as applicants who submitted the Common Application, Universal Application or a school-specific application.

What colleges and universities accept the Cappex Application?

We partner with hundreds of college and university partners. A variety of these schools have agreed to accept the Cappex Application and a full list of the schools that have signed on for the upcoming application cycle will be released in the coming months.

Is it safe?

Yes. Data security is a one of our top priorities and has been since we started connecting students and colleges in 2007. We'll carry this commitment to security with us as we launch the Cappex Application.

How can I learn more?

Keep an eye out for emails this fall and summer that will let you know when the Cappex Application is live and ready to use for the 2016 application cycle! We'll provide more information and tutorials to help you and your students understand just how simple college applications can be.
